Paul Simon quotes:

*"Many musicians attempt to find a common language or palette of colors that create musical neologisms, but it's an endeavor more easily dreamed of than made real. Under One Sun is an example of the dream come true. The group blends seemingly disparate sounds and flavors into a rhythmic stew that makes a musical feast—music that is visceral and intellectual at once. Changing time signatures with an ease that belies the fact that this is their first studio recording, Under One Sun leaves us satisfied and looking forward to hearing its next incarnation."*
